

Dear parents and members of COMSEV,

The New Board of the Cooperative Mensa held its first meeting of 2025 on January 29th. We would like to share a summary of key discussions and decisions:

Online Participation in Annual Assembly

We are exploring the possibility of allowing online attendance for our yearly assembly. While we are open to this idea, we are carefully considering how to implement it effectively, given the challenges of verifying membership and voting rights remotely.

Expanded Picnic Bag Service

In response to student requests, we are looking to enhance our picnic bag service. Currently available for school trips and during lunch hour courses, we aim to expand this offering. We are reviewing our ordering system to accommodate increased demand efficiently.

Returning Cooking to the School Kitchen

This is a top priority for us. We are actively investigating the feasibility and addressing potential obstacles to bring cooking back to the school kitchen as soon as possible.

Water Distribution in the Mensa

The Comitato Mensa raised concerns about the current positioning of water dispensers, which may inadvertently encourage the use of plastic bottles. We will be discussing this with school administration to explore potential sustainable solutions.

Modernizing Payment Options

To make the lunch service more convenient, we are investigating additional payment methods such as credit cards and PayPal, complementing the current bank transfer option.

We are committed to continually improving our services and welcome your feedback on these initiatives. Please feel free to contact us with your thoughts or suggestions.

Thank you for your ongoing support.

Best regards,

The COMSEV Board
